## FV4101 Wireframe Design

Create a simple interface design on pencil and paper showing basic layout and interactive links. See the following rubric for details.

Wireframe Design	The objective of this assignment is for students to demonstrate an understanding of planning the development of an interactive DVD and Website for the final portfolio.				
Assignment Objectives	0	1	2	3	4
The student presents a logical interactive navigation path from buttons to assets.					
The student drew the plan in a horizontal aspect ratio with basic information on screen layout.					
The plan is easy to understand and creates a clear development, progression, and guide to expand the design to the next phase.					
The wireframe provides a list of assets to be included in the final DVD.					
The wireframe shows that the student has researched DVD interfaces and has thought in depth about how to proceed with the final project.
